What if you discovered that everything you thought about yourself and your origins was incorrect? Could you handle the truth? Nikee Madison is like most people—consumed with relationships, family, friends and her job—until she stumbles across information that makes her question everything she thought she knew about herself. Will the truth set her free, as Jesus once said, or is ignorance really bliss?

Her best friend Trisha, a metaphysical junkie, is also on a quest—one that will reveal answers to the age-old questions: Who are we and why are we here on Earth? Along with her soulmate Noah, she discovers things that the powers-that-be have kept hidden from mankind for centuries. Creationists believe that God made us. Atheists believe we have evolved from a lower species. What if they both are wrong?

And just what is causing the dramatic climate changes we are experiencing here on Earth? The answers may surprise and shock you. We spend most of our lives distracting ourselves from the real questions about our existence—and the real truths about our lives. **THINK OF THE SUNFLOWER** is a novel that will challenge you to think about these questions and to face some startling facts. But the reader will learn, as do Nikee and her friends, that even when the truth is hard to accept, even when the future looks the bleakest, the Universe somehow manages to send us help and hope. Sandra L. Huska's third visionary novel not only delivers an entertaining story, it forces the reader to look at the world in an entirely different way. **SOMETIMES TRUTHS ARE BETTER TOLD THROUGH FICTION.**
